

Position Announcement

Position: Staff Geotechnical Engineer / Geologist

Terms: full-time, salaried position

Masa Fujioka & Associates (MFA) is seeking a full-time Staff Engineer or Geologist for geotechnical and environmental work. The Candidate must be self-motivated, independent, dependable, and a strong communicator. Geotechnical field experience in Hawai'i a plus.

Summary:

Conduct field testing for geotechnical and environmental investigations; monitor earthwork; compile and analyze data; prepare environmental permitting applications; contribute to report preparation. Position is on the island of O'ahu, Hawai'i. Relocation costs not provided. Must be currently authorized to work in the US.

Duties and Responsibilities:

- Conduct geotechnical field tests
- Monitor earthwork
- Conduct geotechnical laboratory tests
- Conduct soil and groundwater sampling for environmental investigations
- Compile and analyze data
- Contribute to report preparation
- Prepare Phase I Environmental Site Assessments
- Prepare environmental permitting applications

Required Qualifications:

- Bachelor's degree in Engineering, Geology or Hydrogeology
- Excellent communication skills, both verbal and written
- Strong analytical and report-writing skills
- Able to work in the field, occasionally in remote areas and/or off-island
- Able to lift 40 pounds
- Possessing a valid driver's license
- Able to obtain access to U.S. military bases (MFA would coordinate)

Desirable qualifications:

- Geotechnical engineering field and analytical experience
- OSHA 40-hour HAZWOPER
- 30-hour Construction Safety certification
- First aid certification
- CAD skills
- GIS skills

Masa Fujioka & Associates (MFA) is a locally owned and operated firm that has been providing consulting services throughout Hawai'i and across the Pacific since 1991. We are centrally located in 'Aiea on O'ahu. We provide a full range of geotechnical, hydrogeological, and environmental services. MFA has provided professional services for a wide variety of military and non-military projects. As MFA is a small firm, the Engineer or Geologist will have the opportunity to be involved in a range of project types, with prospects for advancement.
